

Medina’s Turf “Good as Billed,” School Impressed with SCG’s Installation of New TigerTurf Surface

Comprehensive warranty and experience working with SCG on a prior field/track job led Ohio school to choose SCG.

(FOR IMMEDIATE RELEASE) (September, 2007) In Medina, Ohio, athletic director Kevin Kelly has a problem: managing demand of the Medina City School District’s new TigerTurf synthetic field system.

The District, located south of Cleveland, chose Ohio-based Sports Construction Group (SCG) to install its new monofilament system – the most advanced synthetic turf available on the market yet – because of reputation and past success, said Kelly.

“SCG was a natural fit for us since we’d worked with the company before, when it was known as S.W. Franks,” said Kelly. “We chose them because of their reputation for quality and because they were able to meet all of our goals and timelines.”

He added that SCG’s warranty, the most comprehensive in the synthetic turf industry, was a strong selling point for the company.

“We were impressed with SCG on the job. We had good communication throughout the process, everything went very well with the construction and the turf is as good as billed,” said Kelly.

He added that he was “amazed” at what the company accomplished just a few days into the job, moving dirt as early as 7:00 a.m. the first week.

The turf, manufactured by world leading synthetic turf manufacturer TigerTurf, is already hosting a wide array of sports and activities for the Medina school district and community, said Kelly. “We’re getting so much use of the field that I have a difficult time scheduling it.”

He said he hears plenty of praise for the system: ‘why didn’t we get this before...it looks great’ and, naturally, ‘can we use the field?’

Medina is one of an increasing number of schools in Ohio (including Hawken School, Bay Village High School and Hamilton Township) and throughout the U.S. choosing SCG to install TigerTurf.

About Sports Construction Group, L.L.C.

Sports Construction Group, L.L.C., is headquartered in Cleveland, Ohio, with offices near Austin, Texas. The company, a family- and employee-owned sport field specialty contractor, has construction roots that began nearly 50 years ago. Today SCG handles all phases of natural and synthetic turf jobs, from excavation and sub base through installation and maintenance.

SCG's client roster includes some of the most recognizable sport facilities in the nation: Soldier Field, Jacobs Field, Yankee Stadium, Shea Stadium, Citizens Bank Park, Notre Dame Stadium and Johns Hopkins University, to name a few -- along with dozens of Minor League, collegiate, high school and community systems.
